

Scope of works

What the customer thinks they Need:

- A website.
- Somewhere to show their latest tracks and playlists.
- Somewhere to display videos and images.
- The ability too show links to there social media pages.
- To have a section where potential clients can contact them for bookings.

What they actually need:

- A mobile first responsive website.
- A 'my music' section to showcase their latest tracks and weekly playlist.
- A videos section to display latest live performances
- A display of there most recent pictures.
- An 'About me' section so fans can find out more about Suisse.
- A 'contact me' section so potential clients can get in touch for more information or to enquire about bookings.

What they don't know they need:

- A section to advertise the clients clothing line and merchandise site once it is up and running fully.
